

Land preparation for the construction of 44 houses in Neslovice

- **Investor:** MEVOS development, s.r.o.
- **Construction date:** 04-11/2016
- **About the project:**

The village is located approximately 20 km from the center of Brno, 8 km from the 182nd km exit from the D1 highway. In 2016, as a part of the work, there were made all the utilities within an area of approx. 55,000 m² and at the end of the same year, the sale of 44 grounds for the construction of family houses started.

The project works began in 2014 with the development and discussion of changes to the territorial study so that the project would ensure quality and pleasant housing for future residents.

The new town-planning study received the support of the municipality and other approval authorities. Subsequently, zoning and construction procedures were carried out for the construction of utility networks. The actual construction work on the utilities of the territory started in April 2016. The entire investment with a total value of CZK 35,000,000 was approved in November 2016. Subsequently, all plots were sold to future residents to build houses in Neslovice.
